

Opening & Closing Checklist

Daily routine for the shift lead on duty

Effective Owner Version
March 1, 2026 **Maya Thompson, Store Manager** **3.2**

Use this checklist every day. Initial each section in the shift log once it's done, and tell a manager straight away if anything can't be completed.

Opening — arrive 30 minutes before doors

- ☐ Disarm the alarm — the code is on the key fob card in the manager's lockbox.
- ☐ Lights on: front panel first, then fitting rooms.
- ☐ Count the float: \$200 in the till — \$100 in fives and tens, \$100 in coins and ones.
- ☐ Steam any new arrivals on the "to floor" rack.
- ☐ Check the shared inbox for online pickup orders and pull them to the hold shelf.

Till float	Amount
Fives and tens	\$100
Coins and ones	\$100
Total float	\$200

Closing — start 15 minutes before doors close

- ☐ Last call in fitting rooms at 10 minutes to close.
- ☐ Run the end-of-day report on the POS and print two copies.
- ☐ Count the till down to the \$200 float; the rest goes in the deposit bag.
- ☐ Deposit bag goes in the back safe — never leave cash in the till overnight.
- ☐ Return fitting room items to the floor, lights off, set the alarm.

If the till is over or short

Recount once with a second staff member. If it's still off by more than \$5, note the amount on both end-of-day copies and text the store manager before you leave.
